

How To Upgrade UPrint Drivers

1. Copy the following text: `/Library/Application Support/Pharos/Utilities/Uninstaller.app`
2. Open **Spotlight** by pressing **Command + Space Bar**.

3. Then paste the text and double-click the **Uninstaller** application that pops up and follow the simple step by step process to uninstall the UPrint Drivers.

4. Once the old UPrint Drivers are completely uninstalled, visit <http://www.miami.edu/uprint> to download and install the new UPrint Drivers.

For instructions on installing the UPrint Drivers, visit our How-To website here:

<http://sthd.it.miami.edu/apple-howto.html>

For support in person, visit us at any of our locations located in Modular B (Behind the Lowe Art Museum), the Richter Library, the Law Library, or the Calder Library (Medical Campus).
